*The project carried out to celebrate the 100th anniversary of Poland
regaining independence*

Kaleidoscope of 100 years

- The year 2018 marks the celebration the 100th anniversary of Poland regaining independence
- The Medical University of Gdańsk wishes to use this unique opportunity to show all the changes that took place in Polish science, particularly in those fields that are close to our hearts – namely, medicine and pharmacy.
- The series of events called “Kaleidoscope of 100 years” will introduce key moments, significant achievements and important figures in the history of the Medical University of Gdańsk.

Commemorative plaques

niepodlega

Commemorative plaques

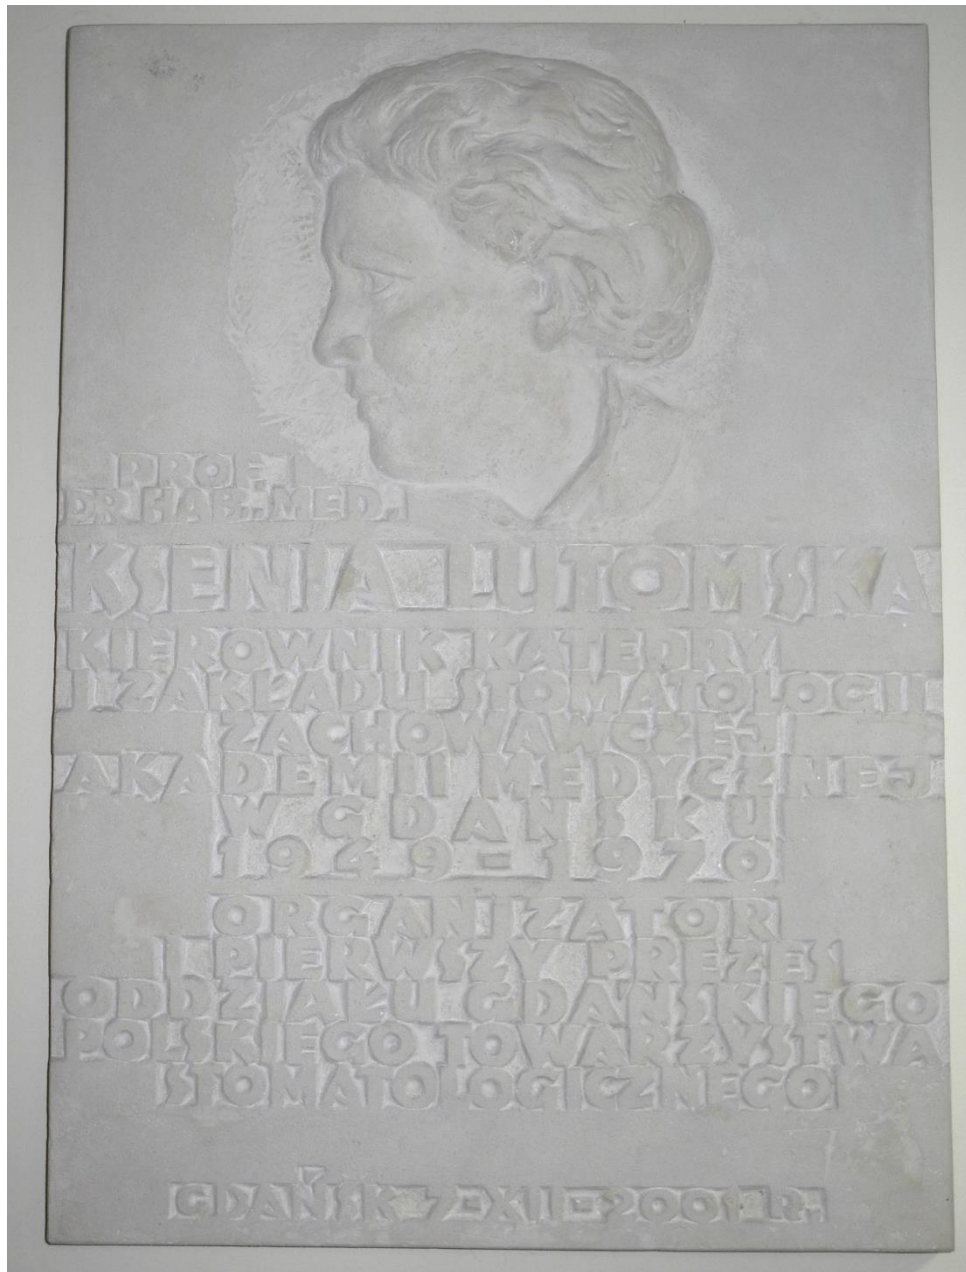

- 100 years of Polish independence is not only the history of the statehood and events of great importance, encompassing the whole country and all its citizens.
- Its also the destiny of the Heroes who had a profound impact on their environment.
- Their memory was commemorated by the plaques in the corridors and lecture halls of the University.
- We are presenting them here encouraging you to look around the walls of the University.

niepodlega

- Professor Stanisław Sokół was an outstanding surgeon, cardiothoracic surgeon and pediatric surgeon.
- He was passionate about the history of surgery; he was a frequent guest to the Main Library.

niepodlega

- Professor Ksenia Lutomska – she was the head of the Chair and Department of Conservative Dentistry from 1949; she was also the co-founder of Gdańsk University dentistry

wiepodlega

niepodlega

- Professor Stanisław Bloch, the first dean of the Faculty of Dentistry, the head of the Chair of Prosthodontics.
- Both plaques [also the plaque of Ksenia Lutomska] are located in the building at Orzeszkowa Street.

- Professor Jakub Penson was an outstanding internist. He inspired students of the Medical Academy.
- He was also a Rector twice.
- The plaque is located by the stairs leading to the lecture hall named professor Stanisław Wszelaki.

niepodlega

- Professor Marian Górski was the head of the Clinic of Internal Diseases.
- He was the co-founder of modern hepatology and gastroenterology.
- In 1963 Professor Zdzisław Kieturakis implanted the first pacemaker into the patient of the Clinic.
- He was also a Rector of the Medical Academy in Gdańsk.
- The plaque is located on the wall opposite the commemorative plaque of professor Jakub Penson.

- Doctor Stefan Michalak came to Gdańsk at the beginning of April 1945 and enthusiastically engaged himself in establishing the Hospital.
- He died in the Baltic Sea, rescuing a drowning person.
- This commemorative plaque is placed on the ground floor of building no 1.

wiepodlega

- Death of “Doctor Ola” (as Aleksandra Gabrysiak was called) horrified the whole academic community as well as Elbląg, where she lived and worked.
- Doctor Aleksandra Gabrysiak was a graduate of the Medical Faculty at AMG.
- This plaque is placed on the ground floor of building no 1.

niepodległa

- Prof. Wilhelm Czarnocki was the first head of the Department of Pathological Anatomy and a rector of AMG.
- This plaque was formerly placed in a Wilhelm Czarnocki lecture hall in no longer existing building no 24.
- It is currently in the collection of MUG Museum.

niepodlega

niepodlega

- Prof. Zdzisław Kieturakis, a graduate of the Medical Faculty at USB in Vilnius, a student and a successor of prof. Kornel Michejda at the Department of Surgery.
- After 1950 he worked and operated in „Łąkowa Hospital” – also no longer existing.
- This commemorative plaque is in the collection of MUG Museum.

- Prof. Michał Reicher – an outstanding anatomist, a founder of Gdańsk anatomical school.
- He was a rector of our University and a great authority.
- This plaque is placed in Michał Reicher lecture hall no 2 in Collegium Biomedicum.

- Prof. Włodzimierz Mozołowski was a biochemist and a strict examiner. He was also a great teacher constantly inspiring his students.

- An honorary doctorate degree of Medical Academy, currently Medical University of Gdańsk, has been awarded since 1965.
- The plaque is located in Atheneum Gedanense Novum.

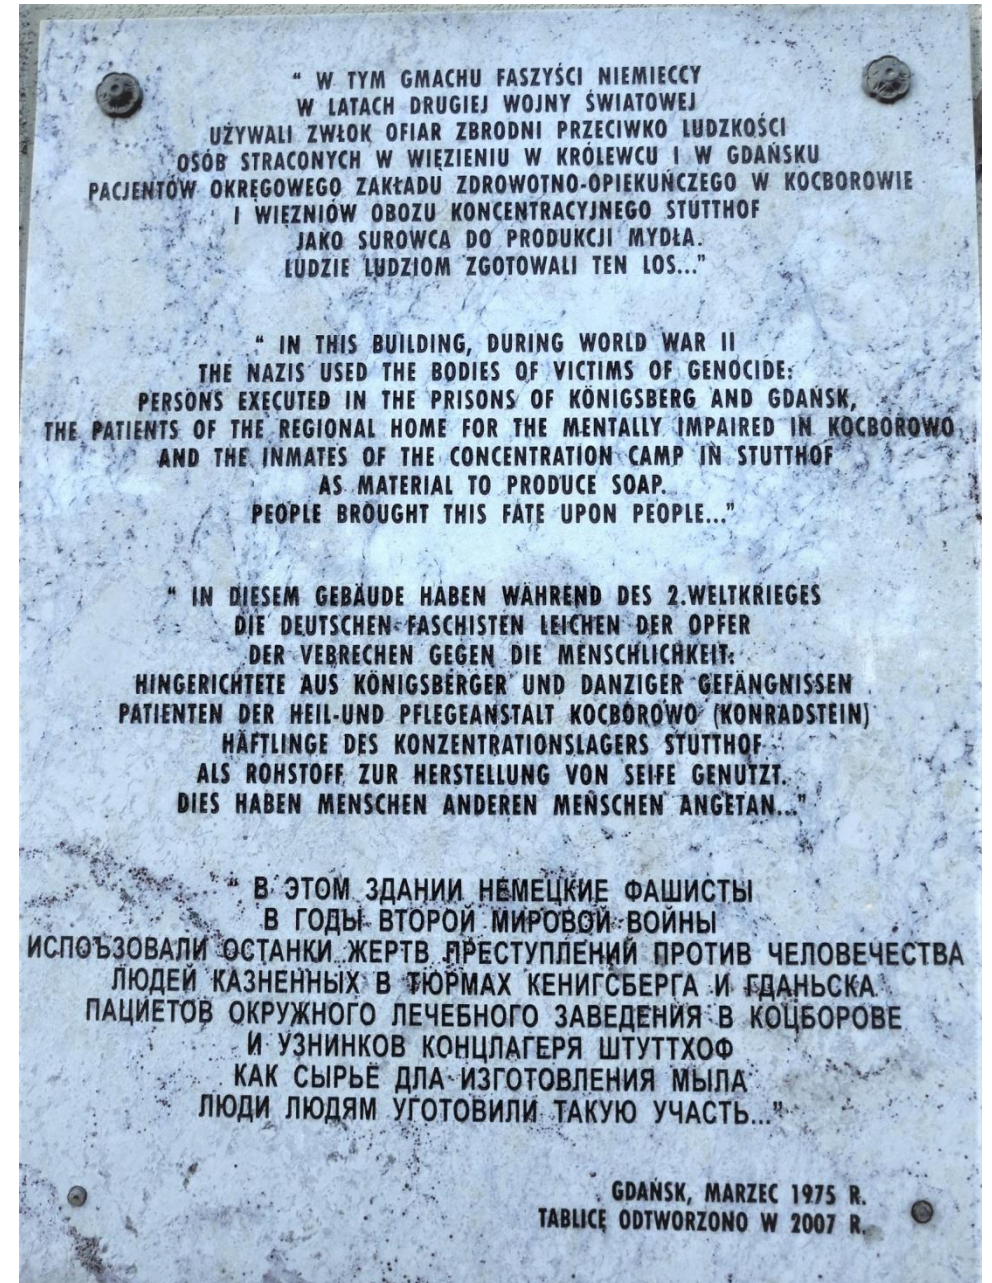

niepodlega

- In 2018, the title of an Honorary Professor of GUMed was awarded for the first time.
- This is a nod to the tradition of USB in Vilnius, where the same title used to awarded.
- The first person to receive this title is Wiesław Makarewicz, a biochemist, co-founder of the Faculty of Biotechnology, rector of AMG, an explorer of the history of the Medical Faculty of USB.
- This plaque is placed in Atheneum Gedanense Novum.

niepodległa

- War, hate, atrocities...
- We experienced them all too often in the past century.
- What will the future bring?
- This plaque located on the outside wall of Atheneum Gedanense Novum commemorates the victims killed in World War II.
